

WHO IS HUSSAIN?

Hussain was a 7th century revolutionary leader who made the ultimate stand for social justice.

Hussain ibn Ali was born in 620 A.D. to a family renowned for their values of peace, justice and generosity. Hussain was a figure most known for his love and humility, and it was for this reason that the people flocked to him. He served as a role model for all the people – promoting values of honour and equality. In his time, the leadership of the vast Arabian Empire had fallen into major disrepute.

The moral values and rights of his society were slowly being eroded under a new tyrannical ruler. Hussain witnessed how the fundamental human rights of his fellow citizens were being usurped, and he chose to make a stand and not bow to the corrupt ruler. In 680 AD, Hussain made the ultimate sacrifice against an army of over 30,000, he stood and he fell defending the rights of others. Hussain's epic legacy lives on until today and inspires millions of people around the world.
